FOOTBALL DEVELOPMENT AND TECHNICAL SERVICES

ABOUT SUNSHINE COAST CHURCHES SOCCER ASSOCIATION

Sunshine Coast Churches Soccer Association (SCCSA) is dedicated to providing high-quality training for kids of all skill levels. We are passionate about nurturing a love for football and fostering positive relationships under a Christian ethos.

The Sunshine Coast Churches Soccer Association was established on 14th September 1974, and became incorporated on 18th November 1988. Various churches had seen the need for a Saturday soccer competition for some time. In mid-1974, representatives from churches were invited to the informal discussion, and an Association was established. A general meeting was held on 15th November 1974. The Association covered from Caloundra to Cooroy -Noosa recruiting got underway to form two competitions under 10 years and an under 13 years and started with approximately 140 playing members.

Today we have over 3500 junior members and 500 senior male and female players. We provide players with the opportunity to play and develop their soccer skills in safe alcohol and drug-free environments on Friday night and Saturdays. We have 19 clubs covering the entire Sunshine Coast region: Caloundra to Noosa and west to Nambour and the Range.

SCCSA is part of a network of Christian Football Associations all over Australia. In Queensland we have close relationships with Queensland Christian Soccer Association (QCSA) and Baptist Football Queensland (BFQ) with whom we compete at State Carnival. Nationally, Christian Football Federation Australia (CFFA) is a collective of associations voluntarily joined together as one body that provide family friendly and affordable COMMUNITY BASED FOOTBALL competitions in the geographic location they serve.

The SCCSA is a community focused, supportive group that share a passion for football, a commitment to our players and families under a Christian ethos. Together, we create an environment that's not only rewarding for players and coaches, but also genuinely fun to be part of.
